TO: AVAILABLE FOR PURCHASE

From: Phil Carrott

RE: Maintainer Service Body & Crane
Truck: 2024 Ford F600 Regular Cab 4x4, 6.7L

Serial #: 240126 & 240127
Body Type: H7024ST-1-84
Quote #: Q13985-1

Service Body

Cost Variance Modifier (CVM), meaning that if high-inflation is incurred from our vendors-suppliers from the time of order to our unit build, we will have no choice but to requote prior to unit production; if multi-orders units are spread-out pricing could vary depending on timing.

Delivery of service body units and lube units (installed on chassis or ship-out body) are to be arranged by the selling dealer; Maintainer does not arrange shipping of complete units.

Chassis Disclaimer: All information and quote pricing shown with this proposal is based on a design utilizing the chassis make and model along with the specific features and options with the chassis as noted below. If any changes are made to the chassis type or options the proposal must be updated as they could change available unit features and options along with quote pricing. Any changes made without updating the quote will void this proposal.

Ex-factory delivery: 4th Quarter 2024

The body configuration below is based on these chassis' selections (Chassis is not included):
Ford F600 4x4 TorqShift 10 Speed Automatic 84" CA Diesel (Regular Cab)

Maintainer Terms and Conditions

All prices are F.O.B. Sheldon, IA and in USD; Delivery of service and lube units are the dealer's responsibility. This quote does not include any applicable local, state or (F.E.T) federal taxes. Payment in full is required at time of order unless other terms are agreed upon prior to sale.

Ex-factory estimated delivery is July, 2024

Orders that are cancelled after booking will be subject to a \$500 cancellation processing fee, in addition to any restocking or costs for parts purchased for the cancelled unit. The fee will cover our incurred costs to process the order, plan production and released purchasing commitments. Orders are considered firm upon chassis confirmation, units are committed to a build slot, and serial numbers are assigned. Changes to booked orders are subject to change order fees. We have historically allowed flexibility on rearranging your builds order prior to week 10, if the swap is without changes to either spec. Units already released for production (weeks 8-10) will be reviewed on a case-by-case basis, but generally it is too late. It is possible they could be reassigned to the offline upfit department and you can get a quote for the changes.

Maintainer reserves the right to make changes and/or substitute components and product is subject to change without notice; Maintainer is not responsible for any Local, State, Federal or other regulations that maybe pertinent to quote/order.

The information contained in this quote, and all supporting documentation is confidential and may only be used by Maintainer, our dealer and/or the customer listed on this quote. We assume no liability for damage due to theft, vandalism, fire, weather, disaster, or damage due to gradual deterioration or inherent defect in such property.

We assume no liability for damage any kind during the storage of your chassis or parts on our premises while awaiting modification or installation. The storage location of the property shall be determined by Maintainer in its discretion. Exception to above is when directly attributable to our own gross negligence in moving or modifying chassis or parts, and in that event only to the extent of the wholesale used value of the chassis or parts as of the date of storage.
